The Shipping Corporation of India Ltd.

Policy and Guidelines for Removal / Suspension / Banning of Entities

1.0 Introduction.

The Shipping Corporation of India Ltd. (SCI), a premier commercial organisation, is committed to maintaining ethics of the highest standard and adopt best industry practices in all its activities. During the course of business, SCI transacts with various firms and companies in their capacity as bidders / vendors / contractors / agents, hereinafter, referred to as the 'Entity'. SCI considers all its business dealings as a relationship and no relationship can be built on deceit or unethical conduct or repeated poor performance on the part of bidders/vendors/contractors/agents. SCI in all its business dealings endeavors to maintain competency, fairness, transparency, and it is expected that the other party to the deal will also uphold similar code of conduct.

This guideline on banning unscrupulous elements / parties is being adopted to weed out corrupt practices and repeated poor performance and their recurrence from the system.

Since banning of business dealings involves civil consequences for an Entity concerned, it is incumbent that adequate opportunity of hearing is provided and the explanation, if tendered, is considered before passing any order in this regard keeping in view the facts and circumstances of the case. Accordingly, during the proceedings as laid down in this document, the party / parties would be provided with ample opportunity to tender their explanations along with documentary evidence to present their case which would be duly considered based on the principles of natural justice. The banning guidelines are not applicable to any inadvertent or unintentional lapse on part of the party.

The decision of banning any business dealings would be taken only after it is established beyond doubt that the party has committed an act of deception, fraud or other misconduct (including repeated poor performance) in the tendering process or in the execution of contracts awarded / orders issued to them.

7.3 If the Competent Authority is prima-facie of the view that action for banning business dealings with the Entity is called for, a show-cause notice may be issued to the Entity as per paragraph 8.1 and an enquiry held accordingly.

8.0 Show-cause Notice:

- 8.1 In case where the Competent Authority decides that action against an Entity is called for, a show-cause notice has to be issued to the Entity. A statement containing the imputation of misconduct or misbehavior may be appended to the show-cause notice and the Entity should be asked to submit within 15 days a written statement in its defense.
- 8.2 On request from the Entity, necessary facility will be provided for inspection of relevant document/s in possession of SCI that establishes the grounds for banning (under clause 4.0).
- 8.3 If no reply is received from the “Entity” within the specified period, the decision may be taken ex-parte. The Competent Authority will pass an appropriate speaking order after examining the materials on record.
- 8.4 The Competent Authority may consider and pass an appropriate order:
 - a. For exonerating the Entity if the charges are not established or
 - b. For removing the Entity from the list of approved Suppliers / Contractors, etc.or
 - c. For banning business dealings with the Entity.
- 8.5 The period for which the ban would be operative may be mentioned in the order. The period of Banning will be of two (2) years. The Competent Authority will have a right to extend the banning period for cases where issues are not resolved. It should also state explicitly that whether the ban would extend to the Inter-connected Entities based on case to case basis.

9.0 Removal from List of Approved Entities - Suppliers/Contractors, etc.:

- 9.1 If the Competent Authority decides that the charge against the Entity is of a minor nature, it may consider removing the name of the Entity from the list of approved Entities – Suppliers / Contractors, etc. – without recourse to an outright ban for a period of one (1) year or for the balance period of the contract whichever is longer.

- 9.2 The effect of such a removal order would be that the Entity would not be entitled to participate in both Open and Limited Tender Enquiries of SCI during such removal period.

10.0 Appeals against the Decision of the Competent Authority:

- 10.1 No Appeal is permitted in case an Agency is Holiday Listed (Banning of business dealing) based on Ministry's advice.
- 10.2 The Entity may file an appeal against the order of the Competent Authority banning business dealing etc. The appeal shall be filed to the Appellate Authority. Such an appeal shall be made within one month from the date of receipt of the order banning business dealing, etc.
- 10.3 The Appellate Authority would consider the appeal and pass appropriate orders which shall be communicated to the Entity as well as the Competent Authority.
- 10.4 **Duration of Banning:** Ordinarily the period for which an Agency is banned should not be less than six months and should not exceed 2 years. However, in extraordinary circumstances the period can be more than 2 years.

11.0 Review of the Decision by the Competent Authority

Any petition / application filed by the Entity concerning the review of the banning order passed originally by Competent Authority under the existing guidelines either before or after filing of appeal before the Appellate Authority or after disposal of appeal by the Appellate Authority, the review petition can be decided by the Competent Authority upon disclosure of new facts / circumstances or subsequent development necessitating such review. The Competent Authority may refer the same petition to the Investigating Committee for examination and recommendation.

12.0 Circulation of the names of Entities with whom Business Dealings have been banned:

- 12.1 The banning order will be issued to the Entity by the concerned contracting Divisional Director. It will also be circulated to all the Divisions and branch offices of the Corporation and the names of the banned entities will be posted on the SCI website.
- 12.2 Depending upon the gravity of misconduct established, the Competent Authority of the Corporate Office may circulate the names of the Entity with whom business dealings have been banned, to Government Departments, other Central Public Sector Enterprises, etc. for such action as they deem appropriate.
- 12.3 If a Government Department or a Central Public Sector Enterprise requests for more information about the Entity with whom business dealings have been banned, a copy of the report of Investigating Department together with a copy of the order of the Competent Authority/Appellate Authority may be furnished.

- 12.4 If business dealings with any Entity have been banned by the Central or State Government or any other Central Public Sector Enterprise, SCI may, without any further enquiry or investigation, issue an order banning business dealing with the Entity and its inter-connected Entities.

13.0 Effect of Banning and Suspension of an Entity:

- (a) The entity after issue of order of banning /suspension shall be debarred from participating in any of the tenders of SCI during the banning/suspension period and the same shall also be hosted on SCI website.
- (b) If the entity has already participated in the tender and price bids are not opened, the technical bids of such entity will be rejected. If the price bid of the tender is already opened and happened to be L1, the tender has to be cancelled and re-tender has to be issued. If the entity is not L1, the tender can be processed further.
- (c) Banning does not preclude a claim for damages for non-performance.
- (d) Banning does not affect any provision in the contract for the settlement of disputes or any other term of the contract which is to operate even after termination.

14.0 Revocation:

Suspension/ Removal of an entity shall be deemed to have been automatically revoked on the expiry of suspension/ Removal period and it will not be necessary to issue a specific formal order of revocation. However, in case of Banned entities, the same shall continue to remain in force unless it is specifically revoked based on the firm's representation with the approval of the Competent Authority who has earlier accorded approval for banning.

- 14.1 In banning cases, where the proprietor of the entity, its employee, partner or representative is convicted by a court of law for offences involving moral turpitude in relation to business dealings, may be revoked if in respect of the same facts, accused has been wholly exonerated by court of Law.
- 14.2 A banning / suspension order may, on a review be revoked by the competent authority if it is of the opinion that the disability already suffered is adequate in the circumstances of the case.

These guidelines shall be applicable for and be part of the Tender document
