- 8.2** On request from the Entity, necessary facility will be provided for inspection of relevant document/s in possession of SCI that establishes the grounds for banning (under clause 4).

- 8.5** The period for which the ban would be operative may be mentioned in the order. The period of Banning will be of two (2) years. The Competent Authority will

**9.2** The effect of such a removal order would be that the Entity would not be entitled to participate in both Open and Limited Tender Enquiries of SCI during such removal period.

**10.4 Duration of Banning:** Ordinarily the period for which an Agency is banned should not be less than six months and should not exceed 2 years. However, in extraordinary circumstances the period can be more than 2 years.

**12.3** If a Government Department or a Central Public Sector Enterprise requests for more information about the Entity with whom business dealings have been banned, a copy of the report of Investigating Department together with a copy of the order of the Competent Authority/Appellate Authority may be furnished.

**12.4** If business dealings with any Entity have been banned by the Central or State Government or any other Central Public Sector Enterprise, SCI may, without any further enquiry or investigation, issue an order banning business dealing with the Entity and its inter-connected Entities.

**13.0 Effect of Banning and Suspension of an Entity:**

(a) The entity after issue of order of banning /suspension shall be debarred from participating in any of the tenders of SCI during the banning/suspension period and the same shall also be hosted on SCI website.

(b) If the entity has already participated in the tender and price bids are not opened, the technical bids of such entity will be rejected. If the price bid of the tender is already opened and happened to be L1, the tender has to be cancelled and re-tender has to be issued. If the entity is not L1, the tender can be processed further.

(c) Banning does not preclude a claim for damages for non-performance.

(d) Banning does not affect any provision in the contract for the settlement of disputes or any other term of the contract which is to operate even after termination.

**14.0 Revocation:**

Suspension/ Removal of an entity shall be deemed to have been automatically revoked on the expiry of suspension/ Removal period and it will not be necessary to issue a specific formal order of revocation. However, in case of Banned entities, the same shall continue to remain in force unless it is specifically revoked based on the firm’s representation with the approval of the Competent Authority who has earlier accorded approval for banning.

**14.1** In banning cases, where the proprietor of the entity, its employee, partner or representative is convicted by a court of law for offences involving moral turpitude in relation to business dealings, may be revoked if in respect of the same facts, accused has been wholly exonerated by court of Law.

**14.2** A banning / suspension order may, on a review be revoked by the competent authority if it is of the opinion that the disability already suffered is adequate in the circumstances of the case.
